

Share Your Knowledge. Promote Your Work.

MCLE offers the following tips on how authors and panelists can maximize the impact of their CLE work product while leveraging and promoting themselves and their law firms and organizations.

Publicize, promote—and *celebrate!*—your MCLE speaking engagements and writings. Have your firm circulate a press release to help you show off a bit! Or consider joining the *MCLE ThisWeek* podcast as our guest!

Reprint your MCLE work in your firm's marketing materials to highlight your expertise to clients and to showcase your firm to potential clients.

Cite your MCLE activities on your social media platforms (don't forget to tag us!) firm website bio, firm newsletter, or other promotional outreach communications, electronic or otherwise.

Get more mileage out of your forms, memoranda, transactional documents, checklists, etc.—using them as teaching tools in MCLE books and programs.

Keep your bio current on MCLE's website, www.mcle.org. In this way, you are visible to the entire Massachusetts bar—and your firm is, too.

Recruit colleagues at your firm to volunteer for MCLE and build their body of work. An MCLE “gig” showcases their expertise and tells the legal community what areas your firm excels in. This helps “brand” your firm's expertise and can result in referrals.

Use your guest pass for professional development or client development. Mentors often use this as a way to introduce a new lawyer to the legal community. And it's a good way for clients to see you as an expert in your field.

And should you need electronic versions of your content, reprint permissions, or copyright information for citation, just let MCLE's staff know. We want to help you promote your work and share your expertise, and we're always here to help! To speak with us about sharing your knowledge and promoting your work for programs or books, please contact:
